

ALBERT DLAMINI

Zee the jeweller (PTY) LTD

- CAD design
- Custom handmade jewellery
- Repairs
- Sizing
- Polishing & Cleaning

ABOUT ME

I, Albert Dlamini the owner of Zee the jeweller (PTY) LTD registered my business in 2012. My business designs and manufactures jewellery in 925 silver. I enrolled for a National Diploma in Jewellery Design at Central University of Technology where I was introduced to Computer Aided Design (CAD). Unfortunately, I did not complete my diploma studies. During my second year of studies, I applied for SEDA Limpopo Jewellery Incubator's SMME development programme and was accepted. Since I became part of the incubator, I have successfully registered my business, received business and technical trainings. Other opportunities involve partaking in SLJI's exhibitions and road shows. My participation in the SMM programme assisted me in improving in my designing techniques which led me to winning a Most Commended Design award in the 2015/16 Thuthuka Jewellery Competition.
