ABOUT ME

I am Dineo Rosalia Ngwetjana the owner of Dream All Jewellers(PTY)LTD. My business deals with designing and manufacturing of beads and commercial jewellery. I started making beaded jewellery as hobby following my traditional culture in 2012 and realized that I enjoyed it and could turn my hobby into business. I realized that if I were going to make a success of this business venture, I would need to sharpen my skills in bead making as well as metal jewellery manufacturing. I had an opportunity in 2014 where I entered in a Learnership programme in Jewellery Design and manufacturing level 3 with Seda Limpopo Jewellery Incubator. After completion of Jewellery Design and manufacturing learnership level 3 with SLJI in April, I joined SMME development. I registered my own business in May 2015 and also enrolled into level 4 Learnership Programme to sharpen my jewellery skills. During the Learnership programme I participated in Thuthuka Competition and won an awards in the category of Commended Prize.
