

ABOUT ME

My name is Lesley Maesela. I am the owner of Lesley Jewellery Design (PTY) LTD, the company that design and manufacture African range and commercial jewellery. I had a passion for jewellery when I was 13 years old. I was using plastic and wood to make toys. I've always taken it as a hobby, not realising that one day I will be an artist. In 2013 I had an opportunity where I entered the Learnership programme in jewellery design and manufacturing level 3 offered by Seda Limpopo Jewellery Incubator. After completing my Level 3, I have enrolled in the SMME development programme where I was taught more about designing, manufacturing, how to run a successful business and marketing my products to clients. I registered my own business in October 2015 and also completed level 4 Learnership programme in May 2016. My business is running and now manufacturing for a client from Cape Town in help of SLJI.
